HERE are some "howls." Brother MARCH:
LOWELL, MASS.—The Middlesex Woolen Mills shut down indefinitely today.
SALISBURY, O.—The miners of this district have decided to resist the proposed 30 per cent. reduction in wages and to hold out for the old scale.
CARBONATE, O.—Five hundred coal miners employed at the Sherburne and Somerville mines held a mass meeting and agreed to accept a reduction of twenty-two and a half cents per ton.
MANCHESTER, N. H.—The Stark Mills which last week reduced the hours to forty per week, now announce that several hundred employees will be discharged at the end of this week; light demand for goods is given as the cause.
[To be continued throughout the entire existence of this Democratic-Free-Trade Administration.]

THE Editor of *The Bulletin* has seen it, all by himself, to say that the Hon. CALHOUN A. GROW, just elected to Congress from Pennsylvania, was an advocate of free coal.

Well, here are the platforms upon which each candidate stood:

Republican Platform. Every consideration of political honor, fidelity and the great commonwealth as well as the pledges upon which Wilson Bill, uncovers the victor of 1892 who was won shall be faithfully and fully kept, and the Democratic Congressmen at large nominated to be, are requested to make this warlike, patriotic war in every wise and patriotic way to the end that, by the defeat of the Wilson Bill, American workingmen, producers and manufacturers may resume that prosperity which the country had but a single year ago.

Upon these declarations the issue was joined and fought to the conclusion recorded in the dispatches announcing the greatest plurality for the Republican party ever given for any party or candidate in a Pennsylvania election. That plurality is the answer of the North to the proclamation of war by the South upon Northern industries, Northern property, Northern civilization and progress. It is the answer of Pennsylvania to Arkansas and Florida and Mississippi. It is the answer from forge and factory, from mine and farm, to the message of fanaticism and ruin from bayon and overglade. It is the thunder of another Gettysburg marking the recoil of the Free-trade charge against the citadel of Northern industry. As Pennsylvania has spoken so will the Union speak in November.

KEEP UP THE SCORE.
New York Press.—In making converts to Republican doctrine Grover Cleveland and the Wilson Bill have scored an immediate and overwhelming success.

REPUBLICAN SUICIDES.
New York Sun (Den.)—Our esteemed Democratic contemporary, *The Chicago Herald*, remarks that "Protection as established in the Wilson Bill is bad enough, but the Wilson Bill Protection plus an income tax is intolerable. The Wilson Bill plus an income tax will be suicide for the Democratic party." The suicide will be complete without using the income tax. The income tax is superfluous even for the purpose of killing the Democracy. It is not necessary for a suicide to take poison after hanging himself.

UNDESIRABLE IMMIGRANTS.
New York Tribune.—Nearly every corner in Europe is represented in the horde of 1,362 immigrants who, according to the statistics just issued by the Commissioner of Immigration, were landed at Ellis Island during the month of December, Italy heading a list which is closed by Turkey. About one half of the entire lot are stated to have been persons of no profession or occupation, while nearly 3,000 are returned as unable either to read or write—scarcely desirable candidates for American citizenship at a moment when the labor market is so overcrowded and the number so large of native born unemployed dependent upon public and private charity.

COMMENDABLE EXAMPLE.
New York Press.—The scorching rebuke which a Williamsburg Justice administered on Tuesday to a heartless creditor who insisted that a poor sewing girl should give up her sewing machine, her sole means of support, because she was short \$2 on the final installment of the purchase price, was richly deserved. The man who would take harsh advantage of the distress of an impoverished woman in such times as the present belongs outside the pale of ordinary consideration. The action of the remorseless creditor in this instance was the more contemptible from the fact that he appears to have known that the mother of the young woman was sick, that her father was out of work and that she had gone without food and had absolutely begged money to satisfy his demands. The indignation Justice rightly declared that his court should not be used "to drive people to the poorhouse." His example is worthy of emulation.

SOVEREIGN

General Master of the Knights of Labor Ravages

Bitterly Denouncing the Decision of Judge Jenkins in the Railroad Case.

Declares That He Will Vindicate the Northern Pacific Injunction-Laboring Men Ordered by the Courts to Keep Their Mouths Shut.

St. Paul, Feb. 26.—General Master Workman Sovereign, of the Knights of Labor, addressed a meeting of the railway employees here Sunday afternoon and tonight, denouncing Judge Jenkins in scathing terms at the same time announcing his intention to violate the Northern Pacific Injunction. Among other things, Mr. Sovereign said:

"This is the first time that the flag of treason has floated over the United States treasury. For the first time in the history of the country patronage has been doled out to get an unfit man confirmed as judge of the supreme court. For the first time in the history of the country laboring men have been ordered by the courts to keep their mouths shut under penalty of being jailed."

"I do not want to get into trouble with the courts, for the penalty is \$5,000 fine and imprisonment in the penitentiary for six months. But the courts, of Milwaukee, issued this order, which is a disgrace. I have been enjoined from talking to the men of this road and from their traveling with me. I am in Wisconsin this evening, to Minneapolis Monday, and Wednesday I will address a meeting of Northern Pacific employees at St. Paul. Just as sure as God is a God in heaven, I will violate the injunction. Judge Jenkins says: 'You may as well be a tool, a man whose soul was intended for hell and whose posterity will be damned.'"

These sentiments were received with immense applause. In an interview Sunday afternoon General Master Workman Sovereign corroborated the statement that the Knights will agitate the subject of depriving Negroes to Africa. He believes the scheme to be a good one, and that it is to be the only solution of the race problem in the south.

SMALLPOX

A Case Develops in the General Hospital at Pittsburgh.

PITTSBURGH, Pa., Feb. 26.—The bureau of health Sunday ordered a quarantine to be established for at least ten days at the West Pennsylvania hospital in this city. Julia Richardson, colored, was Sunday morning attacked with a malignant form of smallpox. She had been confined a day or two ago, supposed to be suffering with influenza. She was removed to the post house, her bed burned and the ward fumigated. There are 100 patients, 15 nurses and several physicians in the building. The police are on guard about the hospital.

MEXICO.

Signor Romero Discusses the Silver Question.

The Latin-American States Must Have Relief.

Or All Exports and Imports Must Be Impossible for Mexico to Demonstrate Silver Because That Would Bring It Into the Country.

WASHINGTON, Feb. 26.—Important and interesting information as to the progress of the international silver monetary question is derived from Signor Romero, the Mexican minister to the United States. In response to inquiries from a representative of the United States regarding his opinion of the published statements that Germany, England and France were about to take the initiative in calling a new monetary conference to consider the silver question, Mr. Romero said:

"The secretary of the treasury of the Mexican government informed me by a personal letter, dated January 19, 1904, that according to private advice the German government was leaning toward a policy regarding silver which would prove favorable to that metal, and that it was almost sure that the international conference would convene again with better chances of success than the last one."

"As long as the United States or any of the commercial nations of Europe took steps to promote the interests of the Latin-American states, the nations using that metal as money to keep in the background and follow the lead of others. But, if the information received is correct, the situation regarding silver as money becomes so difficult that they will have to take the question into their own hands and come to some conclusion as far as they are concerned with a view to prevent further decline in the price of silver and to awaken the interest of the financial world on the subject."

"The secretary of the treasury of the United States, in his annual report, states that silver as money becomes so difficult that they will have to take the question into their own hands and come to some conclusion as far as they are concerned with a view to prevent further decline in the price of silver and to awaken the interest of the financial world on the subject."

THE WHITE CITY.

Beautiful Agricultural Building Destroyed by Fire.

CHICAGO, Feb. 26.—Fire was discovered in the dome of the agricultural building at the World's fair grounds Saturday morning. The flames soon spread to all parts of the roof. A special alarm called engines from Hyde Park and Woodlawn. The marshals said he thought that the fire would be confined to the agricultural building.

Another alarm called other engines and a determined fight against the progress of destruction was begun. Before the fire could be put out, the flames gained headway in the roof and spread rapidly toward the dome in the center. Once having a start in the center, the destruction was a matter of short order.

The firemen were distributed, however, and while several companies were working vigorously in an attempt to stay the fire in the agricultural building others were detailed to adjoining structures and volumes of water were directed toward the dome and entered the roof. An hour after the general alarm was sounded the firemen had accomplished all that was possible and the dome was left a ruin. The destruction of the dome left the already partially ruined building even more unsightly and it now bears little resemblance to the structure which was dismantled by the statue of Diann, which formed a feature of the Court of Honor. But one theory was advanced at the beginning regarding the origin of the fire. It was that the dome was again responsible for its own destruction. The repeated attempts to burn the fire buildings have been so frequent that the fire department was promptly recalled that Saturday's ruin could be safely attributed to the same cause.

THE REPS' PLAN.

Of Starting an Aggressive Campaign on the Tariff Issue.

WASHINGTON, Feb. 26.—Representative Caldwell, of Ohio, chairman of the republican congressional campaign committee, says the committee is preparing for an aggressive campaign. The work will not begin in good earnest until, later in the year, but the ground plan is now being prepared for an aggressive campaign. The next house, he says, will be made with the tariff as the issue. "There is no doubt in my mind," said he, "that we shall win the most of the running in favor of the republicans, and we are preparing to make the most of the favoring conditions."

"It is to be a campaign of education," Mr. Caldwell was asked. "That is just it; a campaign of education. The people want enlightenment on the tariff issue, and we propose giving it to them. We are now collecting all the good speeches made by our party leaders in the house and in the senate, and we shall send them broadcast in every district where they will do the most good."
